

Installation on Windows

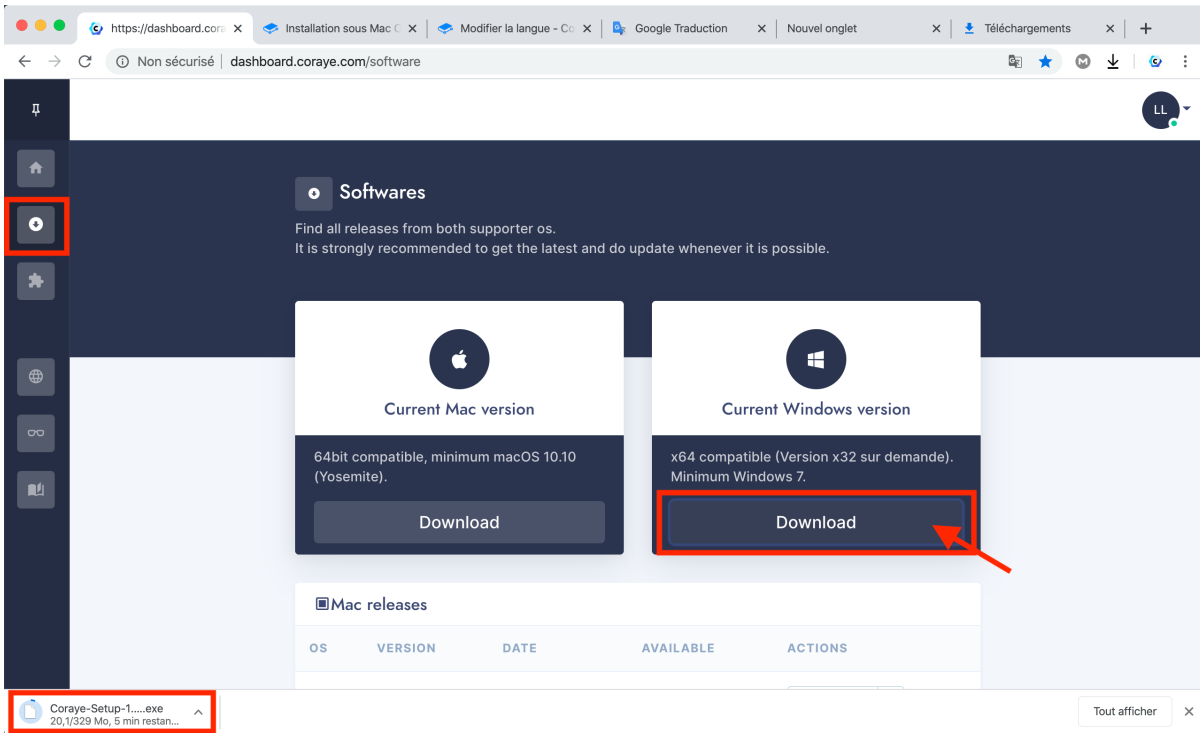

In this chapter we will discuss the installation of Coraye on Mac OS

Download the CORAYE software from the Dashboard

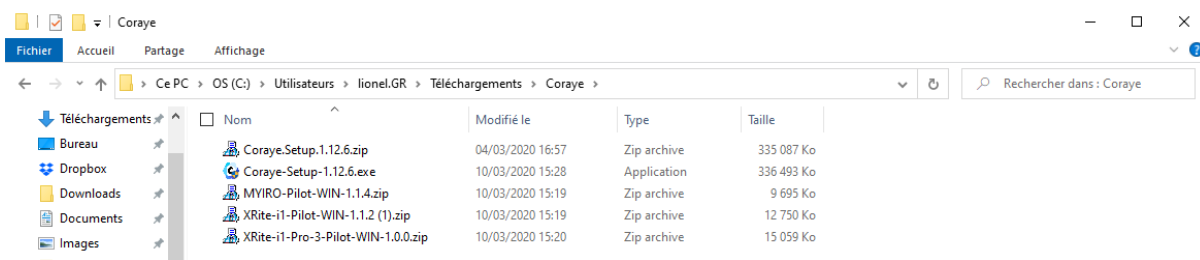

For more information, see the chapter: [Support Download](#)

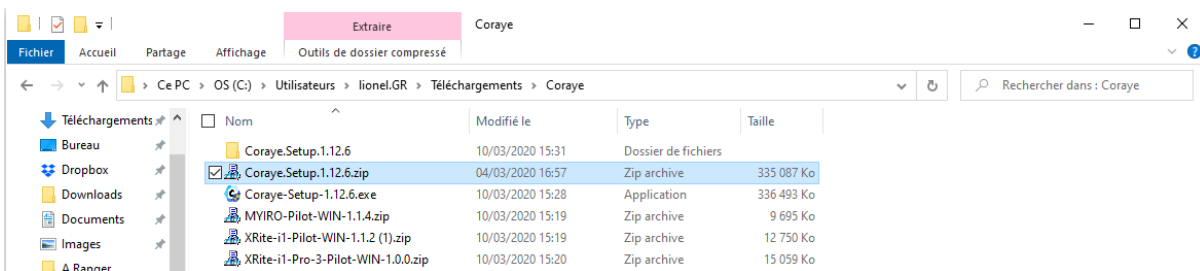

Click on the "Download" button to download the CORAYE software.

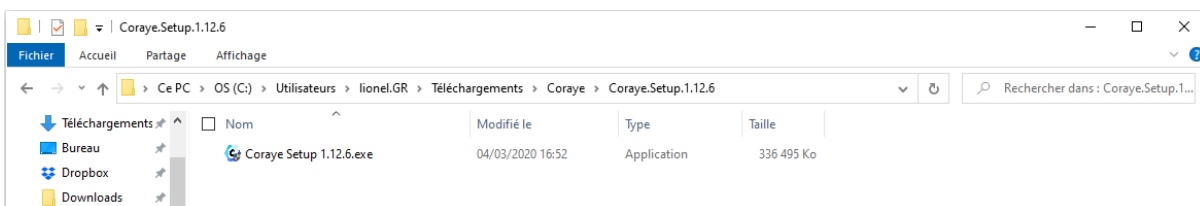

The "Coraye.Setup.XXXzip" file is downloaded

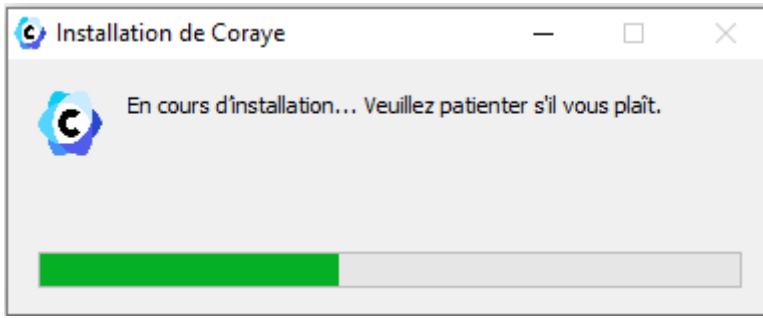

Unzip the file "Coraye.Setup.XXXzip"

Double click to launch the installation of Coraye

Start the CORAYE software

The CORAYE software starts and you must connect with the Email and the password associated with your CORAYE account (which is the same as the one used to access your personal space on the dashboard).

License activation

For more information, see the chapter: [Activate a license](#)
